WELCOME TO PURITY

With over 35 years experience working in partnership with the UK's Private Developers, Trade Merchants, Public Sector Clients, Purpose Built Student Accommodation Providers, Built To Rent Specialists and Retailers – you are in safe hands.

We are a privately owned British manufacturer of fitted furniture. We manufacture right here in the UK from our 90,000 square foot facility in Hadfield, Derbyshire, some 13 miles from Manchester. The importance of reliable supply has never been more critical.

We have developed a reputation for producing quality backed goods with first class service support. A brand trusted by our customers, a brand with a long and rich history.

Its imperative to us that we develop a reliable but personalised service for our customers. This starts here with our **Welcome to Purity** brochure.

Purity by Richmond Furniture is our specialist brand for the Merchant and Independent Kitchen Market. The **Purity** brand is a range of high quality furniture built to the most exacting standards. We have two exciting collections for your consideration: **Purity Xpress** and **Purity Portfolio**.

Purity Xpress is a collection of 11 ranges available on our Xpress service. All of these ranges are offered on our guaranteed postcode delivery service: order Week 1 for delivery Week 2.

Why not take advantage of our vast experience? Experience matter and we know what you need. We understand the importance of developing a range of furniture that both looks magnificent and performs in the same way.

This document outlines all you need to know to help you get started. If you have any questions don't hesitate to contact our team.

Your Purity Xpress units come as standard with White or Onyx cabinets. Your visible cabinet ends are therefore White or Onyx. You can, of course, add our Frontal Matched or Colour Matched gable ends should you desire that the visible ends of your cabinet match your kitchen door. Alternatively, you can order our Frontal Matched or Colour Matched plant on panels. The guide below confirms which of our ranges are offered with Frontal Matched or Colour Matched gables and plant on panels.

FM **FRONTAL MATCHED** When we use the term 'Frontal Matched' gables or plant on panels, this explains that the gables (sides of your units) or plant on panels (which attach to the visible sides of the units) will be manufactured from the same materials as the kitchen door, creating a 100% match. Your plinth and fillers will also be 'Frontal Matched'.

CM **COLOUR MATCHED** When we use the term 'Colour Matched' gables or plant on panels, this explains that the gables (sides of your units) or plant on panels (which attach to the visible sides of the units) will NOT be manufactured from the same materials as the kitchen door, but in a substitute material. Usually, this will be a melamine faced chipboard that matches the colour of the fascia, but not the finish of the door. Your plinth and fillers will also be 'Colour Matched'. **Always** consult Richmond for samples to approve.

Your Purity Portfolio units comes in either SERIES|3HREE in White, Oak or Onyx cabinets, or SERIES|4OUR in White or Onyx as standard. Your visible cabinet ends are therefore White, Oak or Onyx. You can, of course, add our Frontal Matched or Colour Matched gable ends should you wish the visible ends of your cabinet to match the kitchen door. Alternatively, you can order our Frontal Matched or Colour Matched plant on panels. The guide below confirms which of our ranges are offered with Frontal Matched or Colour Matched gables and plant on panels.

FM

FRONTAL MATCHED When we use the term 'Frontal Matched' gables or plant on panels, this explains that the gables (sides of your units) or plant on panels (which attach to the visible sides of the units) will be manufactured from the same materials as the kitchen door, creating a 100% match. Your plinth and fillers will also be 'Frontal Matched'.

CM

COLOUR MATCHED When we use the term 'Colour Matched' gables or plant on panels, this explains that the gables (sides of your units) or plant on panels (which attach to the visible sides of the units) will NOT be manufactured from the same materials as the kitchen door, but in a substitute material. Usually, this will be a melamine-faced chipboard that matches the colour of the fascia, but not the finish of the door. Your plinth and fillers will also be 'Colour Matched'. **Always** consult Richmond for samples to approve.
