# Introduction to Richmond Furniture

Here at Richmond Furniture Ltd, we specialise in the manufacture and installation of premium quality kitchen, bedroom, and associated furniture products, and have done so for over 35 years. Richmond Furniture was established in 1987 and has proudly serviced the High Rise Residential, Build-to-Rent, Private Developer, Public Sector, Purpose-Built Student Accommodation, and Trade Merchant sectors since our conception.

## Experience Matters

What we are about is simple—the provision of high-quality furniture, backed by dependable service foundations at an affordable price. We are on a mission to change how customers think when procuring furniture, with our Sensible Margin Initiative helping to significantly reduce costs on your projects and developments via our industry leading prices.

## Simplicity Matters

Our furniture is made right here, in the United Kingdom. We manufacture in our very own highly invested, 90 000 sq. ft. facility in Hadfield, close to the Peak District. And we are a very busy facility—we produce 50 plots per day (that's 50,000 panels per week, or 110,000 units annually!)

Our skilled employees work with best-in-class machinery to ensure that your order is manufactured promptly and to exacting standards. With an average length of service of 15 years, you know that our people trust us, so you can too.

## Control Matters

We believe in Partnerships that work and benefit from long-standing relationships with all our key material suppliers, safeguarding availability and supply.

While we understand the importance of developing a range of furniture that both looks good and performs magnificently, we also understand you need this great product to be supported by service of equal quality. You can rest assured, no matter your sector, you are in safe hands with Richmond.

## Accreditation Matters

Accreditation is crucial in the markets we supply.

We are FSC, ISO14001 & ISO9001 certified. We pledge to protecting the forests and reducing waste in order to look after our precious environment whilst improving consistency, efficiency and productivity.

SSIP accreditation ensures we as a supplier operate to the correct health and safety standards.

Our many other accreditations, include: CQMS Safety Schemes; SMAS WorkSafe; Constructionline Gold; BUILDING COMMUNITIES; bmtrada; and BMF building excellence in merchant supply.

## Service Matters

Whilst we understand the importance of developing a range of furniture that both looks good and performs magnificently, we also understand our clients require a service that supports our great products.

Operating within 5 very different sectors is why we uniquely offer our customers the opportunity to work with us to create a bespoke service proposition that truly works for them.

Bottoms Reservoir, Hadfield

# Introduction to our suppliers

All our materials are sourced from industry-leading suppliers including Caple, Beko, Bosch, Cata, Hotpoint, Indesit, Neff and Siemens, to complete your kitchen to the highest of standard, functioning brilliantly with style.

Treat your kitchen to the latest technology with Caple appliances designed and built to an exceptional specification. Caple's starting point is focused on how people want to use their appliances; then they add intelligent design, technology and beautiful finishes.

Did you know that every Caple appliance comes with a free 24-month guarantee? This covers repair or replacement in the event of electrical or mechanical breakdown.

Beko has been awarded the Which? Best Value Appliance Brand of the Year, for the second year running!

This outstanding achievement is testament to the reliability, performance and exceptional value of their appliances, backed by strong results in Which? lab tests.

Beko are committed to democratising technology – delivering innovative, dependable products that are accessible to all.

Bosch's products and services are designed to spark enthusiasm, improve quality of life, and help conserve natural resources. Delivering top quality and reliability, creating technology that is "invented for life."

All Bosch home appliances come with a 2 year warranty as standard, to protect against any manufacturing or material faults during this period, including functional parts and labour cover.

This warranty can be extended to a total of 5 years within 28 days of purchase.

Cata UK are part of the CNA group, founded in Spain over 71 years ago. Cata understand that a kitchen is more than just a space; it's a major investment and the heart of your home. That's why they're committed to delivering high-quality, reliable appliances backed by exceptional customer care.

All Cata appliances come with a comprehensive warranty for added convenience and peace of mind. Once registered, each appliance is covered by a 2-year labour and 5-year parts guarantee, so you can feel confident in both your purchase and their long-standing commitment to excellence.

Hotpoint's mission for over 100 years has been to make your life at home easier. Hotpoint have developed a range of products that always deliver outstanding performance, with the latest intelligent technology and functional stylish design.

Hotpoint's appliances come with a 1-year manufacturers guarantee just by simply registering your appliance. Get extra protection with the Repair & Care plan, which offers an initial repair and ongoing care for one or more home appliances.

Indesit's kitchen and home appliances are packed with features to save you time and money, which means you can spend more time doing the things you love.

Indesit appliances typically come with a standard 1-year parts and labor guarantee, plus a 10-year parts guarantee when you register your appliance. This means you'll have free replacement parts for the first 10 years, provided they are installed by Indesit's service engineers.

NEFF is a German-based kitchen appliance brand known for its quality, innovation, and design. Founded in 1877, NEFF has a long history of developing innovative products for both professional chefs and home cooks. Their focus is on creating appliances that meet the highest standards and improve the cooking experience.

All NEFF home appliances come complete with a 2-years warranty as standard to protect against any manufacturing or material faults during this period.

Siemens' create technology with purpose. Their business combines the real and digital worlds unlike any other. Working together seamlessly, they deliver powerful, integrated solutions that enable customers to transform the industries that form the very backbone of economies.

5-year warranty is available on selected freestanding Siemens appliance models, covering fitted spare parts, engineer labour and call out charges, subject to warranty terms and conditions.

# Ovens & Microwaves

The oven is the centrepiece of any kitchen and one of the most important appliances you'll invest in. That's why it's essential to choose one that not only performs well but also complements your kitchen's style. If you're after something for quick and simple tasks like reheating meals or defrosting, a traditional microwave is a great option. However, for added flexibility, a combination microwave is worth considering. It offers the speed of a microwave along with the functionality of an oven and grill.

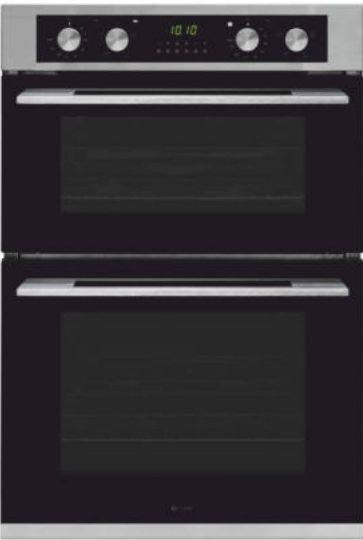

Caple Electric Single Oven

Model Number	C2234	Features	Touch control programmable electronic timer
Code	YGCAP0219-2504		Green display
Energy Rating	A		Metal dial controls

## Hobs

The hob is one of the most frequently used appliances in any kitchen and since you'll likely spend a lot of time cooking at it, it's important to choose one you enjoy using. Whether you prefer the precision of induction, the sleek look of ceramic or the familiarity of gas, there's a hob to suit every cooking style and kitchen setup.

Caple Gas Hob 4 Burner

Model Number	C706G	Features	Flame safety device with auto restart Enamelled pan supports Auto electronic ignition LPG jets included
Code	YGCAP0247-2504

# Chimney Hoods

Chimney hoods play a vital role in keeping your space clean and fresh by removing excess moisture, grease and lingering cooking odours. They work by filtering the air and either recirculating it back into the room or venting it outside. Beyond their practical function, a stylish extractor can also double as a striking design feature, bringing both performance and personality to your kitchen.
