SELECTION PROCESS

We appreciate that a small image or standard sample on occasions may not properly represent a full work surfaces length. Marbles are particularly challenging so on this page, we have shown our Beauty Dontello surface with 3 highlighted possible standard sample sizes cut from the full surface length. Depending on the sample you receive, it can impact your perception of what you will receive in the full length surface.

To help you with this, we have all of our Premier Deluxe Surface Collection images available in full length images should you require these.
